

SUBSEA DRILL

The **WACHS SUBSEA Drill** is the perfect drill for subsea and decommissioning projects, the subsea drill is designed to meet the unexpected needs encountered in the field.

Built of corrosion resistant materials and sealed for use in 350 feet of seawater(150psi), this auto-feed, variable speed tool can drill up to 5" diameter holes.

Applications

Rigging holes
Inspection / Investigation holes
Grouting / Grouting release holes (when using Shears)
Pinning holes for pulling multi-string conductor
Also available in a Dual Pin Drill setup

Features

5" Maximum hole diameter
11.6" Stroke
Variable Speed hydraulic Drive(250 max RPM)
Max 15 GPM @ 1500PSI (Spindle Drive)
5GPM @ 1500PSI (Auto-Feed)
Hydraulic Auto-feed (0-.056"/Min)
Optional manual feed
Versatile mounting configurations

Specifications

System weight = 213lbs
Dim: 16" W x 46"H x 18" D
Max. hole size= 5"diameter

* Shown with multi-size pipe mounting system
